Contains sulphites

Alcohol content  
11.00%

## Wine type

Light wines

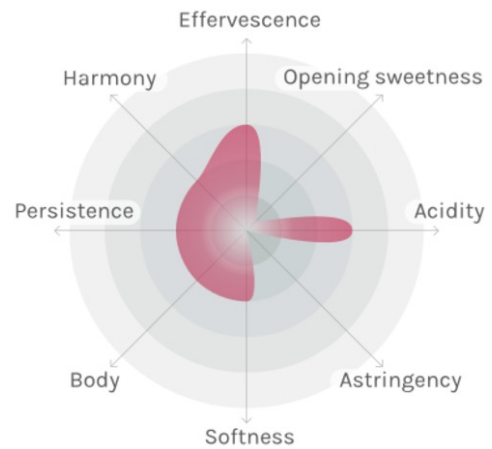

Fresh wines

## Producer

### Botter

One of Veneto's largest wine producers started off as a small vineyard estate in 1928, with just a few hectares of land and a small winery close to Venice on the border to Friaul. A family-run business till today, Botter underscores strict quality controls at the vineyard estate in Motta di Livenza and emphasises careful, gentle vinification. With an export share of 98 percent, Botter is clearly the market leader for wine exports from Venice - and all of Italy - to 40 countries.

## Foodpairing

Asian dishes
